<b>GENERAL ORDER #:</b> 340	<b>RESCINDS:</b> 07/01/13, 06/22/15, 04/04/18, 03/14/19, 07/01/19, 10/02/19, 04/01/2021
<b>SUBJECT:</b> USE OF DEADLY PHYSICAL FORCE FIREARMS DISCHARGE REPORT	<b>NYS ACCREDITATION:</b> <b>20.1, 21.1, 33.1</b>
<b>EFFECTIVE DATE:</b> 04/01/2021	
<b>BY ORDER OF:</b> Stuart W. Peenstra, Chief of Police	

- I. **PURPOSE:** The purpose of this order is to establish policy and guidelines governing the use of deadly physical force by sworn officers of the Town of Seneca Falls Police Department and to establish procedures for reporting, investigating and evaluating the use of such force. Sworn members should make every effort to adhere to the sanctity of life, valuing and preserving human life in all situations, when possible.  
[Revised: 07/01/2019]
  
- II. **POLICY:** It is the policy of the Town of Seneca Falls Police Department to recognize the value of all human life and dignity without prejudice to anyone and to prevent the unnecessary loss of human life. Officers may use deadly physical force only when the use of deadly physical force is objectively reasonable and necessary to:
  - A. Prevent or terminate deadly physical force from being used against the officer or a third person, pursuant to Article 35 of the New York State Penal Law.
  - B. Effect the arrest, or to prevent the escape from custody a person whom the officer reasonably believes to have committed an offense and the use of deadly physical force is necessary to defend the officer or another person from what the officer reasonably believes to be the use or imminent use of deadly physical force by the offender.
  - C. It is the responsibility of each officer to be aware of the requirements of Article 35 of the New York State Penal Law and the standard of objective reasonableness, established by the United States Supreme Court in *Graham v. Connor* to guide his actions based upon that law, department policy and training. As the Supreme Court has recognized, this inquiry embodies “allowance for the fact that police officers are often forced to make split-second judgments in circumstances that are tense, uncertain, and rapidly evolving about the amount of force that is necessary in a particular situation.”  
[Revised: 10/02/2019]
  - D. The primary consideration in the employment of deadly physical force is justification. The fact that a police officer is justified in using deadly physical force does not allow reckless conduct by the police officer. If the use of deadly physical force may injure innocent persons whom he/she is not seeking to arrest or retain in custody.
  - E. The discharge of a firearm will always be considered to be the use of deadly physical force, unless the projectile is an impact munition deployed from a dedicated platform.

- F. Deadly physical force can be expanded to include the use of less-lethal weapons and force if the intent is to cause serious physical injury. This shall include, but is not limited to impact weapons, chemical agents, flashlights, motor vehicles, and bare hands.
- G. Only issued or approved firearms or impact weapons will be carried on duty and used when encountering resistance, except in extreme emergency situations when an officer may use any justifiable resource at his/her disposal.

III. **DEFINITIONS:** [Revised: 10/02/2019]

- A. **DEADLY PHYSICAL FORCE** - Physical force which, under the circumstances in which it is used, is readily capable of producing death or other serious physical injury.
- B. **SERIOUS PHYSICAL INJURY** - Physical injury which creates a substantial risk of death or which causes death or serious and protracted disfigurement, protracted impairment of health or protracted loss or impairment of the function of any bodily organ.
- C. **PHYSICAL INJURY** - Impairment of physical condition or substantial pain.
- D. **REASONABLE BELIEF** - Those facts and circumstances within the knowledge of the individual which would make a reasonable and prudent person tend to believe that the facts and circumstances are true.
- E. **OBJECTIVELY REASONABLE** - An objective standard used to judge an officer's actions. Under this standard, a particular application of force must be judged through the perspective of a reasonable officer facing the same set of circumstances, without the benefit of 20/20 hindsight, and be based on the totality of the facts that are known to that officer at the time that the force was used.
- F. **ACTIVELY POINTING** - The intentional targeting of a person with an Electronic Control Device (ECD), firearm, impact weapon, impact projectile or chemical agent.  
[Revised; 11/11/2019]

IV. **GUIDELINES:**

- A. **TRAINING** - All officers shall receive instruction regarding the use of deadly force, be provided a copy of this order, and shall familiarize themselves with pertinent sections of Article 35 of the New York State Penal Law prior to receiving authorization to carry firearms or less lethal weapons.
- B. **DRAWING AND DISPLAYING WEAPONS**
  - 1. The drawing or display of an officer's weapon represents escalation toward the use of deadly physical force, increasing the risk of accidental discharge or weapon loss, and may contribute to fear or panic. Officers are justified in removing firearms from holsters and/or gun mounts if:
    - a. The member reasonably believes that the situation possess or may pose an immediate threat of death or serious physical injury to the officer or another person; and/or
    - b. There is justification to use deadly physical force against a person.
- C. **WARNING SHOTS** - **Warning shots are prohibited under any circumstances.**

- D. **MOVING VEHICLES** - Discharging a firearm at a moving vehicle is prohibited unless the officer reasonably believes that the occupants of the vehicle are using or about to use deadly physical force against the officer or another person, and all other options have been exhausted. Officers should note that a motor vehicle presents a formidable shield against most firearms and if the officer disables the operator the vehicle can be expected to continue uncontrolled creating a hazard to officer and the public.
  - E. **ANIMALS** - Officers are just in using firearms to destroy an animal for self-defense, to prevent substantial harm to the officer or another, or when the animal is so badly injured that humanity requires its relief from further suffering. A supervisor shall be notified as soon as practical whenever a firearm is discharged to destroy an animal.
  - F. **JUVENILES** - No distinction shall be made relative to the age of the intended target of deadly physical force. Self-defense and imminent threat shall be the only procedural guidelines for employing deadly physical force.
  - G. **FLEEING FELONS** - Officers may use deadly physical force against fleeing felons only when the use of deadly physical force is necessary to effect the arrest, or to prevent the escape from custody a person whom the officer reasonably believes to have committed an offense listed in Article 35 of the New York State Penal Law, and the use of deadly physical force is necessary to defend the officer or another person from what the officer reasonably believes to be the use or imminent use of deadly physical force by the offender.
  - H. **RISK TO INNOCENT PERSONS** - Officers are prohibited from discharging firearms when it appears likely that an innocent person in the immediate line of fire may be injured.
  - I. **DUTY TO INTERVENE** - Any officer present and observing another officer using force that he/she reasonably believes to be clearly beyond that which is objectively reasonable under the circumstances shall intercede to prevent the use of unreasonable force, if and when the officer has a realistic opportunity to prevent harm. [Revised: 07/01/2019]
- v. **DETERMINING THE OBJECTIVE REASONABLENESS OF FORCE**: [Revised: 10/02/2019]
- A. When used, force should be only that which is objectively reasonable given the circumstances perceived by the officer at the time of the event.
  - B. Factors that may be used in determining the reasonableness of force include, but are not limited to:
    - 1. The severity of the crime or circumstances.
    - 2. The level and immediacy of threat or resistance posed by the suspect.
    - 3. The potential for the injury to citizens, officers and suspects.
    - 4. The risk or attempt of the suspect to escape.
    - 5. The knowledge, training and experience of the officer.
    - 6. Officer/subject considerations such as age, size, relative strength, skill level, injury or exhaustion and the number of officers or subjects.
    - 7. Other environmental conditions or exigent circumstances.

vi. **PROCEDURE:**

**The office of special Investigations Will Investigate Incidents Involving the Death of Persons Caused by a Police Officer or Peace Officer**

New York State Executive Law Section 70-b mandates the establishment of an Office of Special Investigation (OSI) within the Office of the New York State Attorney General (OAG), effective April 1, 2021. This legislation represents the codification – and the expansion – of the role currently performed by the Special Investigations and Prosecutions Unit (SIPU) since Executive Order 147 became effective on July 8, 2015.

The legislation requires OSI to “investigate and, if warranted, prosecute and alleged criminal offenses committed by a person, whether or not formally on duty, who is a police officer...peace officer...concerning any incident in which the death of a person, whether in custody or not, is caused by an act or omission of such police officer or peace officer or in which the attorney general determines there is a question as to whether the death was in fact caused by an act or omission of such police officer or peace officer.” OSI will investigate every incident in which a police officer caused or may reasonably have caused the death of a person, whether the person is armed or unarmed, and whether the officer is on duty or not. The law further obligates OSI to investigate every incident in which certain state, county, or local peace officers caused or may reasonably have caused the death of a person or an incarcerated inmate.
